## DESTRUCTION IN WAKE OF STORM

Electrical Disturbances, Rain and Hail Sweep Sections of Southern States.

**OKLAHOMA CITY, Okla., May 21.**—Severe electrical disturbances, heavy rains and damaging hailstorms are reported from over the larger part of southern and southeastern Oklahoma tonight. Telegraph and telephone wires are down in many places. High waters are threatening regions along the Arkansas, Washita, Canadian, Blue and Little rivers. The severest storms are along Red river.

On the field left barren yesterday by the tornado and that swept away the town of McCarty, twenty-five demolished farm houses were found today. A Wynnewood physician reported today that he had dressed the wounds of eight injured near McCarty. Some of them had their clothes blown off. None were seriously injured. Two houses were wrecked at Paoli. The town of Massville remained intact.

## OGDEN GUN SHOTS WIN HIGH HONOR

In times past the citizens of Ogden have been justly proud of the success of its baseball team, and the business men have contributed generously to the support of that organization, but they are also interested in the success of the members of the gun clubs who go away to shoot in tournaments where there are gathered together the most expert shots. Such an event has just closed at Walla Walla, Washington, where there was held the twenty-sixth annual tournament of the Sportsmen's Association of the Northwest. The Ogden Gun club was represented by G. L. Becker, A. P. Bigelow and Moroni Skeen.

There were in attendance seventy-seven of the best amateur shots from the states of California, Oregon, Washington, British Columbia, Montana, Idaho and Utah, and eight professionals, representing the leading gun and ammunition firms of the country. The program consisted of 200 targets per man for each of the

three days. The last three events in each day were for the association trophies and were shot from a handicap, the better shots being placed at a greater distance than targets are ordinarily shot at.

In former tournaments Ogden shooters have won signal honors, and this year they were even more successful than heretofore.

G. L. Becker won the "Globe trophy," making a score of 48 out of 50 targets, this trophy never having been won on so high a score but once before.

A. P. Bigelow won the "Dayton medal" on a score of 39 out of 40 targets, and the high average medal, the coveted prize of the tournament, awarded to the man making the highest score for the entire three days. Mr. Bigelow broke 561 out of 600, an average of 93.5 per cent. McLaughlin of Seattle and Dryden of Walla Walla tied for second average with 557 targets broken, and G. L. Becker was third man with 555.

## TIMBER SURVEY MOVES RAPIDLY

**Foresters Return from Big District With Encouraging Reports.**

Foresters C. M. Butler and Lincoln Grow have returned from southern Utah, where they have been employed during the past two months assisting in the work of surveying the Kaibab forest in the Buckskin mountains.

The gentlemen state that the survey is progressing rapidly and that a plat of the entire forest will be prepared for the use of the government by September 1st, and that at that time the government will be in position to state how much and what kind of timber is for sale.

It has been estimated that there are something like 3,800,000,000 feet of timber fit for sawing that the government could profitably dispose of to parties who would build a railroad into that country, but Mr. Butler states that it is more than likely that there are not more than 2,500,000,000 feet that could be used in making lumber.

The surveying and platting of the country has already progressed to such an extent, says District Forester E. A. Sherman, as to enable the government to give accurate information regarding certain parts of the forests, and that timber in those sections can be sold at any time. Those projecting railroads into countries of that kind ask a purchase of timber amounting to at least 500,000,000 feet, but it is questionable whether the government will sell more than 250,000,000 feet to a single corporation.

The forest service officers are of the opinion, however, that it would be well for Uncle Sam to sell 500,000,000 feet of the timber of the Kaibab forest if it would be the means of inducing the building of a railroad into that section of country, but it is a grave question whether officers higher up having the matter in hand will consent to so large a sale. This may be the means of delaying the extension of a railroad.

A road is now contemplated to extend from Lund, on the San Pedro route, through Cedar City, the Dixie country, the forest section and as far as the grand gorge of the Colorado river in Arizona.

## SERVICES OF HIGH SCHOOL CLOSE HERE

The baccalaureate services of the graduating class of Ogden High school will be held Sunday night at eight o'clock in the First Presbyterian church, Twenty-fourth and Adams avenues. The class is a good sized one and with them will also meet the class of 1909-12, which graduated at midyear last year.

The auditorium of the church will be decorated with the class and school colors, and there will be sections reserved for the parents of the members of the class and for the teachers of the school as well as for the trustees. Special sections will be marked by the colors of the junior, sophomores and freshman class for the members of those classes.

The high school orchestra will be present and play the opening number and the offertory. The music of the evening will be attractive. Besides the high school orchestra, special numbers will be given by Misses Mitchell, Corn, and Biddle and Mr. Saunders.

The graduating class will meet at 7:30 Sunday evening in the parlors of the church and march from there in a body to their allotted seats.

The baccalaureate sermon will be upon the theme of "The Great Riches of Youth." The morning sermon at eleven will be upon Edmund Halley, the man who was greater than the comet which bears his name.

## HALLEY'S COMET

You need not get up in the night to see the comet. Just call at the Grand Union Tea store on Washington, and you can see it day or night, at the same time we will show you the valuable set of four drip pans that will be given away next Saturday at the comet sale with one can of our Pure Baking Powder, at 50c. This is the most valuable recent premium since the comet appeared last—75 years ago. If you will call and see them you can not help taking them.

## MANY TO ENTER HIGH SCHOOL

**List of Graduates from Sub-High School Proves Large.**

Principal D. H. Adams of the sub-high school states that the result of the eighth grade work in the city schools this year is in advance of that of former years, due to the fact that the students of that grade of all the schools of the city were brought together and taught under the most favorable circumstances possible. The plan of separating the eighth grade students from the others and giving them a sub-high course has proved to be a marked improvement over the old system, and there is little question in the minds of the pedagogues that it will be perpetuated in the Ogden schools.

Following is the list of graduates from the sub-high school this year: Mildred Adams, Genevieve Allison, William Baggs, Ellen Bell, Lillian Beck, Pearl Bennett, Vera Bliton, Ethelbert Bingham, Jennie Barton, Lawrence Bowman, Edward Brophy, Lawrence Burton, Helena Butterfield, Jean Case, Ben Charlesworth, Teala Child, Edith Child, Chloe Cordon, Leo Cooney, Florence Crites, Grace Crites, Clyde Crawford.
